

# ADDENDUM No: 4

## CTICC 005/2017: Mechanical, Electrical and builder's work – Installation, testing, commissioning and handing over of generators

Dear Tenderer,

### **1. Additional Documentation:**

Please find attach the Architect's general arrangement plans.

### **2. Revised Bill of Quantities (BOQ):**

Please find attach the revised Bill of Quantities to replace C2.2.

The same size cable is to be used in both the installation of the 2x 1 000 kVA and the 1x 500 kVA generator sets.

### **3. Appropriate form of Contract for Engineering and Construction Works:**

General Conditions of Contract for Construction Works (GCC), 2010 have been stipulated under Part 1 of the Contract Data. It can be used on all types of engineering and construction contracts. Joint Building Contracts Committee (JBCC) is however confined to building works. The GCC type contract is more appropriate to this type of project since it is a majority electrical/ mechanical works type project. Please refer to the "CIDB Best Practice guideline #2: Choosing an appropriate form of contract for engineering and construction" at the following website: [www.cidb.org.za](http://www.cidb.org.za)

Kind Regards;

Eben Lewis (Supply Chain Manager)

Cape Town International Convention Centre Company SOC Ltd (RF) (CTICC)
